

Debt Summary

Debt service expenses represent the retiring of debt such as leases, loans, and bond issues. It includes principal and interest payments, and administrative costs for paying agents, registrars, and escrow agents. As of July 1, 2007 the City uses 3 different debt instruments. The following is a list of those instruments as well as an explanation of each.

Lease Purchases: A financing approach to acquire the use of an asset in which installment payments are made. A "lease purchase" agreement permits the lessee to purchase the asset at the end of the lease term for a predetermined price. Leases do not constitute a general obligation or other indebtedness of the City within the meaning of any constitutional, statutory, or Charter debt limitations.

One of the City's funding mechanisms for procuring machinery and equipment are lease purchase obligations. At July 1, 2007, the City will have 11 lease purchase obligations in the amount of \$970,948. Short-term debt for Fiscal Year 2007/2008 totals \$298,550. Through these financing arrangements, the City has purchased the following:

Triple Combo Fire Truck	105 PCs	800 MHz Radios
6 Police Vehicles	12 Laptops	Grapple Trucks
Tractor	9 Servers	Service Truck
IP Telephone System	Scanner	Fire Command Truck
i5 iSeries Server	Imaging Software	

All leases are collateralized with the machinery and equipment purchased under the financing arrangements. These obligations are to be paid from the General Fund, with the exception of the Grapple Trucks, which will belong to the Waste Management Fund. Interest rates range from 2.95% to 9.43%.

Revenue Bonds: Securities for which debt service payments are generated from a specific revenue source.

In April 2003, the City issued Water and Sewer Revenue Note, Series 2001A in the amount of \$10,069,024 including capitalized interest. The proceeds were issued to partially finance improvements and expansion of the City's Wastewater Treatment Facility. The expansion provides extra treatment capacity to the City and allows the City to provide wastewater treatment services to the Town of Andrews and Georgetown County Water and Sewer District in conjunction with the West Georgetown County Regional Wastewater Treatment System Service Agreement entered into in 1997. Debt service on this loan is payable by and is secured by pledged revenues of the Combined Water and Wastewater Utility Enterprise Funds.

Debt Summary (continued)

Interfund loans: Amounts provided between funds and blended component units of the primary government with a requirement for repayment.

On August 21, 2003, City Council authorized an Internal Wastewater Utility Fund Loan due from the Wastewater Utility Fund to the Electric Utility Fund, in the amount of \$900,000. The loan was used to fund the City's portion of the Regional Wastewater Treatment Plant not funded by grants or other external loans as well as the City's portion of the landfill compost pad. The loan is being repaid in annual installments of \$63,325 at 3.5% interest.

Future Debt: The City is currently planning to enter into a lease agreement to cover the cost of several capital items in the FY 2007/2008 budget. The budgeted amount to borrow is \$152,000.

Legal Debt Margin: The City has a legal debt limit of 8% of the total assessed value. This is the excess of the amount of debt legally authorized over the amount of debt outstanding. The City is authorized by state statute to exceed the legal debt margin if the additional debt is approved by the City's citizens.

Total Assessed Value	\$ 30,345,323
Debt Limit - 8% of Total Assessed Value	2,427,626
Total Amount of Debt Applicable to Debt Limit	-
Legal Debt Margin	<u>\$ 2,427,626</u>
